About Us

Dore Group of Companies provides functional, aesthetic, and sustainable solutions for residential and hospitality spaces through its modular furniture production carried out in its own workshop.

Our production portfolio includes kitchen cabinets, wardrobes, and bathroom cabinets, as well as modular systems specifically designed to meet diverse project requirements. For hotel projects, we meticulously prepare both 3D designs and 2D layout plans of the project areas, managing the entire process from design to implementation with a professional and integrated approach. Following the design phase, we also handle the import processes for the required products and materials, offering comprehensive turnkey solutions.

Actively operating in both domestic and international markets, Dore Group of Companies ensures the safe transportation of its modular furniture via road, sea (container), and air freight.

Thanks to their modular structure, our products are easy to transport and quick to assemble by the end user, providing significant savings in both time and cost.

With our commitment to quality manufacturing, strong logistics infrastructure, and design-oriented approach, we aim to deliver the right solution at the right time for every project.

KITCHEN FURNITURE CATALOG

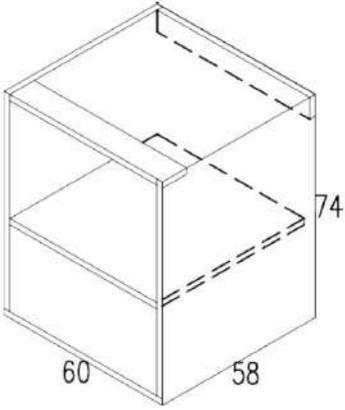

Our modular kitchen cabinets offer practical solutions for various living spaces with their aesthetic design, functional use, and easy installation.
